

## SECRETMAKER

An enigmatic name, question marks and, behind moving lights and a video, the SECRET MAKER musicians. Gérard Tempier Bonda, composer and founder of this musical concept was able to, through his career in classical music, eke out other rhythms and styles resulting in musical improvisation and contrasts that create unique virtuosity and harmony. The artist, accompanied on stage by Martin Saccardy, mixes up genres and musical instruments, fuses sounds and uses delays with talent, generosity and courage.
